

Dear Westport Families,

I want to thank you for your patience during this time of tremendous transition at our Westport Community Schools. As you know, we successfully moved into our brand new Middle/High School on September 7th. It is a testament to our staff, students, and families that we could accomplish this feat. For all of you who helped us transition into the new school and reconfigure the school district, we thank you wholeheartedly.

With that said, it has not been without its challenges. While we were able to begin classes, this by no means indicates that the work in our buildings is complete. In fact, there will be construction work continuing in all of our buildings for the next few months, as supply chain issues and employee shortages have resulted in delays that have prohibited us from completing the work for the start of school.

As a result of these construction delays, the District Leadership has determined for safety reasons that we will prohibit public access to our buildings until the work has been completed. This will allow our stakeholders the opportunity to see the schools once the construction work is finished. We will continue to communicate with our families and friends about the progress we are making and when we will host activities like our new school ribbon cutting and other public events. Until then, we will keep the lines of communication open and host virtual events to ensure our school community remains connected with us.

As always, we thank you for your help and support during these very challenging but exciting times for our Westport Community Schools.

Sincerely,  
Thomas F. Aubin  
Superintendent of Schools
